

Parent & Student Testimonials

Testimonial Number One:

I am the father of a 6 year old, first grade student as well as of an 8 year old, third grade student. Our youngest has attended the Newport Montessori School since it opened in 2005. She completed the 3-year primary program in the South Classroom last year and is fortunate to be among the first group of youngsters participating in the new lower elementary program this year. "My classroom is quiet and busy. My favorite lessons are the ten-chain (skip counting by 10's with a concrete bead chain), the four-chain, and the 100 board (a magnetic board with removable squares numbered from 1 to 100)", said first-grader, Natasha.

Our oldest attended the Newport Montessori School as a kindergarten student in 2005. For first and second grade he attended public school as continuing at NMS was not an option. When the decision was made by NMS to add lower elementary our decision to place our son back in at NMS was without hesitation. "NMS is fun, and you don't feel the learning. I like it there because I am able to help the younger students in my class with their lessons", said third-grader, Alex.
